

Scholarship Policy

5.1 Scholarship Categories

MediTech University offers three categories of scholarship to Registered Students: the Merit Scholarship, awarded on the basis of academic performance; the Need-Based Scholarship, awarded on the basis of demonstrated financial need; and the Sports and Co-Curricular Scholarship, awarded to students who represent the University at inter-university, state, or national level in sporting or co-curricular activities. A student may hold only one category of scholarship in a given Academic Year, except where the Scholarship Committee, in its discretion, permits combination of the Sports and Co-Curricular Scholarship with the Merit Scholarship.

5.2 Eligibility Criteria

Eligibility for the Merit Scholarship requires a student to have secured a Cumulative Grade Point Average of 8.5 or above in the preceding semester and to have maintained attendance in accordance with Section 2.1. Eligibility for the Need-Based Scholarship requires the applicant's family annual income to fall below the threshold notified by the Scholarship Committee at the commencement of each Academic Year, together with a minimum Cumulative Grade Point Average of 6.0. Eligibility for the Sports and Co-Curricular Scholarship requires certified proof of representation at the qualifying level, together with a minimum Cumulative Grade Point Average of 6.0 and no record of Detained status under Section 2.6 in the preceding two semesters.

5.3 Application Procedure

A student seeking a scholarship must submit an application to the Scholarship Committee through the student portal within the window notified at the commencement of each semester, accompanied by supporting documentation appropriate to the scholarship category, including academic transcripts, income certificates issued by a competent Government authority, or certificates of sporting or co-curricular achievement, as applicable. Incomplete applications are not considered and are returned to the applicant with a notice specifying the deficiency, with an opportunity to resubmit within one week.

5.4 Scholarship Renewal

A scholarship, once granted, is subject to annual review by the Scholarship Committee prior to the commencement of each Academic Year. Renewal of the Merit Scholarship requires the student to have maintained a Cumulative Grade Point Average of 8.5 or above in the immediately preceding semester. Renewal of the Need-Based Scholarship requires continued satisfaction of the income criteria and a minimum Cumulative Grade Point Average of 6.0. Renewal of the Sports and Co-Curricular Scholarship requires continued active representation of the University and satisfaction of the minimum academic performance criteria specified in Section 5.2.

5.5 Discontinuation and Forfeiture

A scholarship is liable to be discontinued where the recipient fails to satisfy the applicable renewal criteria under Section 5.4, is found to have furnished false or misleading information in the scholarship application, or is subject to a disciplinary sanction under Section 7.2 involving debarment from examinations. A student whose scholarship is discontinued on account of false or misleading information is additionally required to refund the scholarship amount disbursed for the relevant period, in a manner determined by the Finance Office.

5.6 Disbursement

Scholarship amounts are disbursed in two installments per Academic Year, corresponding to the Odd and Even Semesters, and are credited either directly toward the student's semester fee liability under Section 4.1 or to the student's registered bank account, according to the mode notified by the Scholarship Committee for the relevant category. Disbursement for a given semester is processed only after the Scholarship Committee has confirmed continued eligibility under Section 5.4 for that semester.

5.7 Committee Review Procedure

The Scholarship Committee, constituted by the Competent Authority at the commencement of each Academic Year, comprises representatives from the Finance Office, the Office of the Registrar, and at least one faculty member from each School, and is responsible for the overall administration of the scholarship categories described under Section 5.1. The Committee convenes at the commencement of each semester to review applications received under Section 5.3 and to determine eligibility in accordance with the criteria prescribed under Section 5.2.

5.8 Documentation Verification

All documentation submitted in support of a scholarship application, including income certificates and certificates of sporting or co-curricular achievement, is subject to verification by the Scholarship Committee, which may seek confirmation from the issuing authority or require the applicant to submit additional supporting evidence. An applicant who fails to respond to a verification request within two weeks of being notified is treated as having withdrawn the application.

5.9 Scholarship Communication

The outcome of a scholarship application, whether for initial grant or renewal under Section 5.4, is communicated to the applicant through the student portal and University email within four weeks of the close of the application window notified under Section 5.3. An applicant whose application is not approved is provided with a brief written reason for the decision.

5.10 Disbursement Administration

Disbursement of scholarship amounts under Section 5.6 is administered jointly by the Scholarship Committee and the Finance Office, with the Finance Office responsible for the actual transfer of funds or fee credit following confirmation of eligibility by the Scholarship Committee. Any discrepancy in the amount disbursed must be reported by the student to the Finance Office within two weeks of disbursement for reconciliation.

5.11 Scholarship Records

Records of all scholarships granted, renewed, discontinued, or forfeited under this policy are maintained by the Scholarship Committee in coordination with the Office of the Registrar, and form part of the student's academic record for reference in connection with future scholarship applications. A student may request a written statement of their scholarship history from the Scholarship Committee for use in external applications, such as for further studies or employment.
